KEY FINDINGS

It is our conclusion that the property has low level development potential as part of a larger development site.

Please note: Sites identified as suitable for development may not be under current planning policy. As planning policies evolve or change, further development opportunities may arise. They may also remove sites from being vulnerable to development. This report is a prediction of where development may take place, but cannot be guaranteed what will or will not occur in the future.

Does the subject property / land have development potential?

YES

Does the subject property / land have potential as part of a larger development?

YES

Should the property be considered for an alternative use?

NO

Should further investigations be made regarding adjoining land?

YES

Land Identified for Development

The land shown here as site 1 has the potential to support 5 houses or 11 flats. Any such application for development should be considered speculative and may be refused by the Local Planning Authority. Actual achievable density of development may vary.

Current Zoning in Local Plan

The land is zoned within the settlement/urban area of Basingstoke and Deane Borough Council. Development is presumed acceptable when within the settlement, subject to it conforming to development control policies and standards.

5 Year Housing Supply

Basingstoke and Deane Borough Council are not currently able to demonstrate the required 5 year supply of housing land. There is therefore a presumption in favour of any development that can be defined as sustainable according to the criteria laid out in the National Planning Policy Framework. We are aware that hostile planning applications for housing on greenfield land are being submitted in this district. Further information is available on page 6.

Development Potential of the Property

The subject property is 0.27 of an acre (11761.2 sqft).

It is currently a single storey dwelling with one and two storey structures being the dominant type of property in this area. The property has a large rear garden. Sometimes these display development potential. This has been carefully considered.

We have concluded that there is development potential. We have considered replacement of the existing structure with more substantial replacement dwelling. This may be permissible but unlikely to create any uplift in value. The property could contribute land to the assembly of site 1. Any such application for development should be considered speculative and may be refused by the Local Planning Authority. The opportunity for development should be considered to be low.

The planning history for the subject property is attached for your consideration.

Surrounding properties may also benefit from covenants that may control any development potential of the subject property.

It is our conclusion that the property has low level development potential as part of a larger development site.

Land Supply Position

The table below shows the updated land supply position which stands at **4.6 years**. The council cannot, therefore, demonstrate a five-year supply of deliverable sites and the presumption in favour of sustainable development applies.

Housing land supply calculation

5 Year Requirement	4,150
Annual Requirement	830
Total 5 year supply	3,817
Shortfall	333 (4,150 – 3,817)
Years of Supply	4.6 years (3,817/830)

DATA PROVIDER

The DevAssist product range of DevAssess, DevAssess Premium, DevCheck, DevProbate and DevCity are services provided by DevAssist. Reports are compiled by DevAssist Ltd. Registered with the Property Codes Compliance Board.

Investigations undertaken to compile this report:

1. Professional analysis of Ordnance Survey to identify development opportunities.
2. A desk top inspection of the aerial maps over the identified area.
3. An Assessment of land marketed for sale for development purposes over the last 3 years (sources Estates Gazette and Property Week).
4. Inspection of the Local Plan.
5. Inspection of emerging local policy documents and Neighbourhood Plan (where available).
6. Inspection of Strategic Housing and Economic Land Availability Assessment (SHELAA) (where available).

The choices this report presents

This report seeks to establish the development opportunities that exist within the subject property. This is not a valuation or feasibility. Its purpose is to find development opportunities. It may find development potential that may benefit the subject property.

You can use this information to decide whether to buy the property, conscious of what may happen in the future. Your property may sit within a conservation area and, as such, any development may not be favourably looked upon. It may sit next to green belt that is vulnerable to rezoning for development. Perhaps the property you propose to buy could have an involvement in a development with great financial benefit to you. It may of course have none of the above and you have bought some peace of mind.

Please note that not all identified sites will be developed as landowners may not sell, or for other reasons that could make the development non-viable. Some planning policies may also change and evolve that makes development either less or more likely. We advise you make an informed decision by assessing these risks.

Finally, please note that we cannot always identify single dwellings that are replaced with a more substantial dwelling. One for one replacement's are generally not economic. When there is a buyer with a special interest, however, the economics are sometimes not considered relevant. Some properties may be converted into flats which again is almost impossible to predict. Planning is a subject where you can never say 'never'! There may always be situations when planning permission is considered acceptable.

If you have any development or valuation questions arising from this report, or would like to investigate any aspect in greater depth, specialist advice is available on request. Detailed reports are also available on planning and neighbourhood information, valuation of development land, impact and risk.
